# City Officials Look Dimly on Section 14 Plan

### Roads Are Main Source Of Complaint

MEMBERS OF THE Planning Commission, the City Council, and Special City Planning Consultant Simon Eisner all voiced opinion against the plan which calls for a 18-hole golf course, a shopping center, a convention center, and living quarters from apartments and hotels to one family dwellings, as well as private homesites elong the golf course fairways.

Most objectionable, in the viewpoint of the planners, is the lack of roads in the section and the division of Tahquitz Drive, in the center of which is planned the shopping center.

"In effect," said the Commission, "this division this far from downtown business district, will cause the proposed district to become a regional shopping cen-ter, and will pull business away from downtown Palm Springs."

EISNER POINTED out that any plan for Section 14 should increase the uses and facilities in relationship to the present downtown business district, and not divide from it.

The ever important thought of traffic downtown brought up another objection to the Gruen plan, -the lack of north-south roads. The plan shows only one road north and south, but Southland holds an AB degree in business said that in his opinion it was all

THIS BROUGHT a quick rebut tal by Simon, who pointed out that Southland must be off in his figures, "because this plan would easily add some 2,000 residents, automobiles into the section-and the roads, as laid out in the plan, would be far from sufficient.

AFL-CIO President Says 'No Sense' In Delaying Issue

WASHINGTON - (P) - AFL . CIO leaders told President Eisen-hower today that the administration decision to defer anti-recession tax cut action is sary and unwise," and will cause more unemployment.

AFL - CIO President George Meany said the federation' Executive Committee told Eisenhower there would be "no sense" waiting until next month before deciding the tax cut issue.

TREASURY SECRETARY Robert B. Anderson said after a conerence with Eisenhower Wednesday that no tax reduction decision would be made until "The future course of the economy has been clarified."

House Republican leader Joseph

W. Martin Jr. had said earlier that the decision would be defer-red "another month." But Meany and the other AFL

CIO leaders said tax cuts and other anti-recession measures should be put in effect now. Meany told newsmen every economic indicator suggests March will show a further decline

MEANY SAID THE President felt the situation was very serious and gave every indication that "he's certainly going to do what he can."

Meany described the conference "very friendly" and said the President "certainly did" show concern over rising unemployment. He said Eienhower did not offer any suggestions but said he would take the AFL - CIO recom-mendations under consideration.

### 'Patterns of Disease' Could Be Great Aid

"Patterns of Disease" is the name of the newest periodical to come to our attention and we predict you'll be glad some day that it is being printed. While the publishers assures us that it is "for the exclusive use of the medical profession, the fact of its existence should be of interest to everyone.

This new monthly bulletin is virtually a doctor's G-2-a special intelligence service that provides him promptly with hitherto unknown statistical information about the enemy, disease. By referring to "Patterns," which presents its form, a busy doctor can grasp this information at a glance, and be alerted to major disease trends in his state, his city, his area.

The first issue, for instance, was largely devoted to a study of "Your ally the facts of longer life, the changes of the diseases most likely to attack as age increases, increase of disability our hats in gratitude.

with age, medical costs for the aged, who takes care of them and where they live. There are some surprises, incidentally, in the map that shows a higher concentration of older people in the midwest than in California!

In the current issue, the major discussion, handled in similar graphic style, is a report on cardiovascular diseases, which "claim more lives than all other diseases combined." But every issue presents "disease patterns of the month," a factual survey that forewarns the doctor of any advance of the communicable diseases-infantile paralysis, diptheria, whooping cough, scarlet fever, measles-in his community. He is thus on the alert for signs of a developing epidemic and prepared for both preventive and curative treatment.

We may never be able to pinpoint Older Patients." It presented graphic- an epidemic that didn't happen, just as we could never place a price-tag on itin life expectancy since 1900, analysis or know how many lives a doctor has saved. ### The McClellan Committee Handicap

WASHINGTON, D. C. - It is a three-horse race for public approval in the McClellan investigating committee. The order is subject to sudden change, and the finish is a long way off. But at this writing the horses are running — Labor first, private enterprise second, the U. S. Sen-

This is a painful sight to some of us who would rather see the order exactly reversed, but truth must be served by honest observation. Reading from the tail end of the procession toward the front, this is how the race

THE U. S. SENATE dropped ino last place when Senator Carl Curtis (R., Neb.) pulled a dirty trick on a United Auto Workers' witness. Curtis asked Robert Burkart to state whether he and the present Mrs. Burkart were actually married in 1953, as stated in a union publication of that year.

Purkart was in the unhappy throes of a divorce case at the time and asked to be excused from answering a question of persnal privacy. Curtis sted in "explaining" his persisted in question until these famly mat-ters were loosed into the gossip stream and into the Senate committee records.

CURTIS WON - AND lost. He won his petty effort at em-barrassing the witness. He lost the sympathy of the press table and, I would guess, that of the general public. Senator McClellan, committee chairman, somewhat redeemed the Senate's lost position by disparaging this lowblow method of breaking a witness's credibility. In contrast to Curtis, another

Republican, Senator Barry Goldwater (R., Ariz.) bore down relentlessly on Burkart's former membership in the Trotskyite organization, Socialist Workers' Party. When Burkart claimed it as a youthful indiscretion of the depression period, Goldwater showed that it happened when the witness was 27 years old in the boom years of World War II.

THIS IS SHREWD and legitimate testing of a witness's char-acter and veracity. Funny thing: Curtis is a lawyer; Goldwater is

### Dear Abby ..

DEAR ABBY, I am a girl of 15 and was raised strict and decent. My parents always told me to come to them with my questions about sex and life. I always have, but they don't tell me everything I want to know. I go with a boy my age who is very nice. He knows everything and when I ask him certain questions about sex and life he explains it much better than my parents. My parents say there is nothing "dirty" about sex, yet when I talk to my boyfriend about it something tells me I shouldn't. Do you think it's wrong to discuss these things with my boyfriend? CONFUSED

DEAR CONFUSED: That "something" that tells you not to discuss "sex and life" with your boyfriend is plain common The facts concerning sex and life should come from your parents, a doctor or a mature and experienced friend.

DEAR ABBY: I don't agree with the answer you gave about "tipping." When eating out, your food is all you should have to pay for. The management pays the waitress. Chances are the waitress makes more money than the people who eat there. I'm a nurse, and I don't expect a tip for pills, shots, a glass of water or a bath I give, that is my job and waiting on table is NON TIPPER

### It's an Easy Step from Dreaming to Driving!

Here he is at last-just a few miles out on his maiden journey-with his hands on the wheel and his head in the clouds. It's his!

And yet, truth to tell, he does have one regret. For he knows that he needn't have waited this long, had he but realized what an easy step it is from dreaming of a Cadillac to driving in a Cadillac.

Like a great many motorists, for instance, he was not aware that a Cadillac-in view of its obvious virtues-could be so modest in price.

Nor did he appreciate, until the facts were presented, how economical a Cadillac is to maintain or how wonderfully it holds its value over the years.

And little did he suspect how accommodating his dealer would be in welcoming him to membership in the great and distinguished family of Cadillac owners.

So, if you have your heart set on a Cadillac, you should hesitate no longer to investigate this happy set of circumstances.

In fact, why not visit your dealer today? He will be happy to help you select your favorite Cadillac model with your favorite Fleetwood interior-be it the luxurious Sixty-Two Coupe or the magnificent Eldorado Brougham.

.... to meet the ever-increasing demand for service!

Building new facilities fast enough in the fast growing California communities we serve is a BIG JOB. It's an even BIGGER job to obtain the new money needed to finance our growing line of communications. And this year they will really grow! We have increased our new construction budget to a record high. That's why we are asking for even more faith on the part of the men and women whose investments make it possible for you to have the finest and most modern telephone service in California.

Who are these investors? To date over 10,600 men, women and institutions such as insurance companies, have made it possible for us to build a \$69.5 million plant to serve you. Over 8,000 of these investors are Californians. Many additional investors will be needed to furnish the \$13.5 million for new construction funds this year.

> To attract these investors ... people all over the United States, people like you, like our own employees ... we must evidence an ability to pay them a fair return for their investment. That's why we, in turn, must constantly seek a reasonable refor the telephone communication

### Over Vibrant Language Continues to March on, Government Leaders Are Responsible for Many Changes in Word Usage--First Launch, Do Good

By DOC QUIGG . Here we have a put united Press Staff Correspondent speech of the future.

NEW YORK (P) Small doses of scalding thought:

Our vibrant language is marching on Asking Congress for support of a project to shoot the moon, Air Force Lt. Gen. D. L.

Here we have a peep at the speech of the future.

"So long, mom, I'm leaving for Mars at third launch tomorrow."

THE GENERAL was on firm ground with his usage of the word launch. You may have thought that the sending of a newly-built ship down the ways and into the water is a launching. But a check of ship-building people discloses

out champagne bottle, bashing, is known properly as "the launch."

On the same day that General would be a nice thing to return to.
